Delta Engineering Co. Ltd
WWW.DELTAGROUPCO.COM

PROFILE

Delta Engineering Company LTD is an Oilfield Service Company specializing in the following:-

- * Oil & Gas Well Drilling.
- * Completion,
- * Workover Services,
- * Coiled Tubing Services,
- * Wireline (Slickline) Services,
- * Oil & Gas Well Testing Services,
- * Well Cementing Services,
- * Construction Services,
- * Steel Works Fabrication such as
- * Mud System, Storage Tanks, Pre-Fab Houses etc...
- * Machine Shop – Manufacture, Re-manufacture, Assembling, Repairs etc....

Delta also provides experienced personnel to meet dire requirements of Oil Companies at the level of expatriate as well as at local level which are based in the Republic of Yemen, Arab Republic of Syria, The Kingdome of Hashemite of Jordan, Arab Republic of Egypt, Republic of Sudan, Democratic Republic of Ethiopia and The Republic of Uganda.

Delta Engineering Company Ltd.

Preface

Delta Engineering Company LTD is an Oil field Service Company specializing in Oil, Gas Exploration and Water wells drilling including other Services such as Completion, Workover Services, Coiled Tubing, Wire line, Construction services, Steel Fabrication, Machine Shop and Oil field supplies ,Delta also provides experienced personnel to meet both the expatriate and local manpower requirements of other companies based in the Republic of Yemen.

From the very beginning I, along with dedicated management team, was determined to do whatever was necessary to build an International Organization that could meet and exceed the standard of any other International Company in our profession.

Today, Delta, thank to god, do maintain firm policy on quality work and our dedicated staff, became a well reputed Oilfield Services Company which can meet the standard of any International Oilfield Services Company .

We take creditability and sincerity as a platform of our development and we are indeed committed to utilize our advanced technology to serve our clients.

DELTA have won the high reputation both in the Rep . of Yemen and abroad for our Performance and high reliability. We persistently adopt new Information technology to align with new generation of technology in the field of oil and gas exploration & Production.

*Eng . Abdul Aziz Abdul Wasa'a Ahmed
Chairman of the Board of Director.*

Company History

Delta Engineering was established in 1986. The president of the company have thirty years of operational and management experience in the oil Industries decided to go alone.

The Company developed excellent relationships with major Oil Companies Operating in the Middle East, U. S. A, Africa and the Far East.

Since establishment of Delta it has expanded remarkably not only that but as a reputable company. The credit for this achievements is due to Delta's dedicated & highly professional .

Delta since its establishment in 1986 has been implementing Drilling and Work over Services ,Coiled Tubing, Wire line (Slickline) Services, Construction and Machinery Workshop to several international petroleum Companies (API)standard.

Delta's rigs are run by highly qualified, dedicated and professional staff with the backup of a fully Equipped workshop and machine shop facilities.

Today Delta, maintains improvements and keeps the pace of developing itself till it became one of the best and largest Oilfield Services Company in the Republic of Yemen and the Middle East.

Due to highly qualified professional Management's performance, Delta has been awarded the ISO 9001 :2000 and UKAS (The Quality Management), the IADC membership , Gold award for excellence and business prestige and Winner of the International Star for Leadership in Quality Award in New York 2010 .

Delta's Objective

Delta's goal is to be all the way to remain most respected and reliable Oil Field Service Company in the given industry by providing unparalleled services to our clients.

And how do we achieve this ?

- By selecting best and professional work team.
- Always strives to keep "safety" a top priority.
- By using the modern technology and most reliable equipment in the operation.
- We maintain highest integrity level in our performance.

Task Force: We consider our task force as main asset and the source of our strength. They nurture our intelligence and determine our reputation and vitality. Professionalism and teamwork spirit demonstrate human values. As much as we pave path to our crew to improve their individual personal skills and further empower them to create a dignified and long-term career objectives.

Safety First: The safety of people, work sites and equipment is our top priority. Safety comes before productivity as precautionary measures.

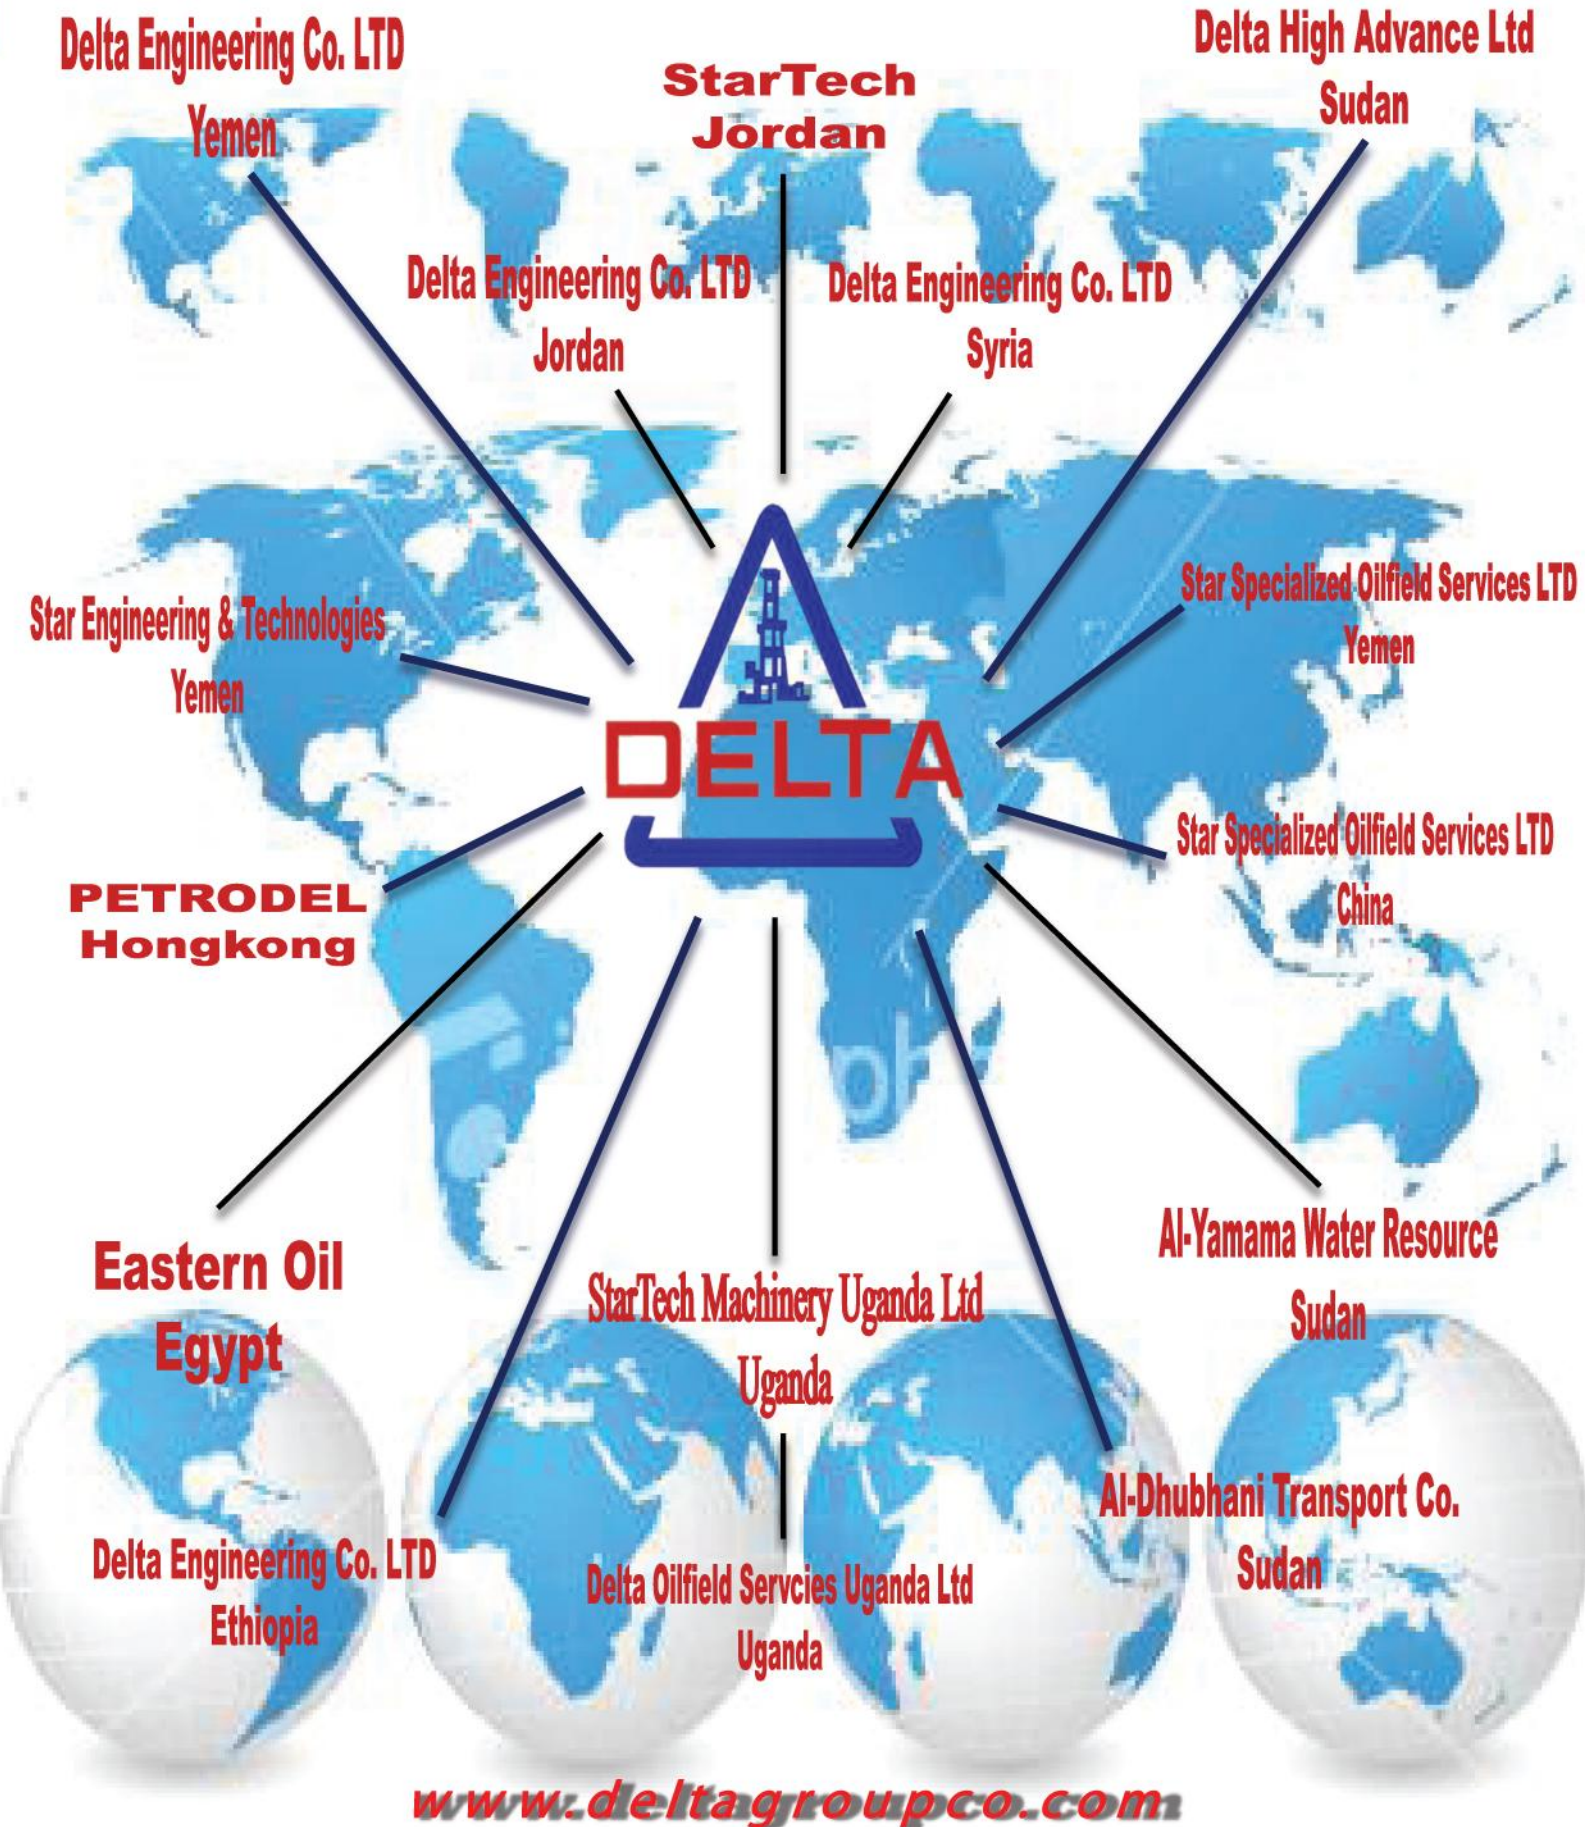

Equipment: Our services and equipments are exceptionally reliable. We do also maintain a highly reliable fleet of rigs with affiliated parts, which is essence to our success.

Integrity: A subject of Integrity is never compromised in our company policy. The code of conduct of the company is pursued in a manner that is socially responsible, respect given for individual integrity and for its positive contributions to society.

Delta Engineering Company Ltd.

An oil field Services Company specializing in Oil, Gas Exploration, Production and wells

Drilling including other Services such as Completion, Work over Services, Coiled Tubing , Slick line and Rental basis for Pumps, Mud Systems and Other Oil Field Tools & Equipment.

Delta Engineering Company Ltd.

Delta Drilling Rigs

Delta has its remarkable wide range capacity of Drilling Rigs from 1000 HP & 2000 HP

DELTA Rigs combines sturdy construction with mobility in the most inaccessible areas, high performance, safety and easy operation. Also can drill through all soft, medium and hard formations utilizing rotary, down hole percussion, mud or foam drilling as required.

Delta Engineering Company Ltd.

Delta Drilling Rigs

We take creditability and sincerity as a platform of our development and we are indeed committed to utilize our advanced technology to serve our clients.

Oil and Gas Well Drilling, Worldwide Rig Management, Onshore and Offshore, Workover, Completion, Coiled Tubing, Wireline Operations and Construction Services of Civil Works.

DELTA has won the high reputation both in the Rep. of Yemen and abroad for our performance and high reliability. We persistently adopt new information technology to align with new generation of technology in the oilfield.

*Delta has its
Remarkable
wide range capacity
in Drilling Rigs.*

Delta Drilling Rigs Capacity of 1000 HP & 2000 HP used for Drilling Oil and Gas. They are equipped with all well control equipment, mud system, BHA and Handling Tools.

Delta Workover Rigs

Delta has its remarkable wide range capacity of workover Rigs from 500 HP to 1500 HP .

Delta Workover Rigs at Calvalley Block 9
Oilfield in the Republic of Yemen.

Delta Workover Rig

Delta can easily operate and adapt to various climatic and weather conditions Snowy, Flood, stormy, dry and wet ground, over and above be it summer or winter season, while maintaining HSE at highest expected standard.

Tubular running Services

Delta tubular running services facilitate safe and efficient running of tubulars, minimizing wellsite risk and reducing nonproductive time. As one of the casing/tubing running company in the world, we offer an extensive selection of advanced mechanized tubular running equipment

Power Tongs

Drill Pipe Tongs are designed to allow for the quick and safe running or your drill pipe. These tongs are available in Different sizes

Casing Tong designs are available to deal with high-torque casing, lightweight casing, for continuous output torque and the unique gated -rotary design. Size ranges available to meet your casing needs.

Tubing Tongs have been designed for rugged use and reliable performance- even at the higher torque required to break premium connections.

Our two-speed, sealed planetary gear transmission assures you dependability with minimal maintenance.

Delta Engineering Company Ltd.

HYDRAULIC POWER UNITS

Electric-or diesel-power units are available to provide a reliable power source for a wide range of hydraulic requirements, including all onshore and offshore applications. Our power units can be used to power everything from a single piece of equipment to a complete rig-system solution.

Delta power units are available in standard or custom-designed configurations and are generally skid mounted.

HANDLING TOOLS

Delta provides a variety of handling tools to increase efficiency while eliminating dangerous rig-floor operations.

Star Specialized Oilfield Services Ltd

STAR - ACTIVITIES

Civil Works Services

- 1 - Earth works
 - Road construction & Design
 - Improving and Upgrading for all existing roads and access
 - Construction drilling site locations
 - Clearing & Grubbing for pipeline route
- 2 - Concrete & Structural Services
 - Reinforced concrete foundation and pads
 - Casting all pipeline supports
 - Pre-cast concrete structure
 - Installing & construction of steel fencing
- 3 - Building and Residence shacks
 - Accommodation projects
 - Industrial storage
 - Landscaping & Industrial design
- 4 - Steel structure Building
 - Install of Hunger Building
 - Install of pre- Fab Houses
 - Warehouses & concrete Building
- 5 - Infrastructure projects
 - Sewage network & Sanitation
 - Storm water system, flood protection works

Star Specialized Oilfield Services Ltd

Mechanical and Electrical Construction Services

- 1 - Sand blasting and painting of pipe & structural steel.
- 2 - All pipeline works.
- 3 - Fabricating and Installing of all piping, valves, manifolds and other control equipment
- 4 - Mechanical & Electrical construction of plant, field facilities and installation.
- 5 - Installing all electrical equipment including Generators, Lighting panels, power transforms, cables trays, conduit cable and warning systems.
- 6 - Installing all mechanical injection skids, including vessel tanks, pump skids and manifold chemical injection skid including civil base.
- 7 - General fabrication and coating services.
